

Programme

The XXIX Marius Plouzhnikov International Conference of Young Otorhinolaryngologists
Venue: House of Scientists (Palace of Grand Duke Vladimir). Address: Dvortsovaya Naberezhnaya, 26.

May 19, 2016

8.00-9.00 Registration

White Hall

9.00-9.10 Ceremonial Opening of the Conference

9.10-9.30 Prof. B. Schmelzer (Antwerp) - Respiratory Epithelial Adenomatoid Hamartoma vs Respiratory Epithelial Orbital Cystic Choristoma

9.30-9.50 Prof. P.Catalano (Boston) – The importance of the nasal airway in childhood development

9.50- 10.10 Prof. R Hagen (Würzburg) –Difficult cases in hearing restoration

10.10 -10.30 Prof. M. Onerci (Ankara) - Endoscopic frontal sinus surgery

10.30-10.50 Prof. H.Negm (Egypt) - Treasures of the Egyptian museum

10.50 - 11.20 Break

11.20-11.40 Dr. Dr. h.c. M.Lehnhardt-Gorjany (Germany) - PORA Webinars- -teaching and counseling Russian speaking professionals and parents.

11.40- 12.00 Prof. Y.Krespi (New York) – Swell Body Ablation and Nasal Airflow.

12.00- 12.20 Prof. W. Mann (Mainz) - Otolaryngology beyond laser and scalpel

12.20-12.40 Berghmans J., Poels S., Poley M., Veyckemans F., Weber F., Van de Velde M., Schmelzer B., Himpe D., Utens E. (Belgium)- Preoperative emotional/behavioral functioning of a child is associated with higher postoperative pain at home after adenotonsillectomy.

12.40 -13.00 Prof. D. Vicheva (Plovdiv) - Pediatric Rhinosinusitis and the role of adenoidectomy

13.00-13.40 Break

13.40- 14.00 Prof. H.Kaddour (London) – Thyroid Nodule: knife or needle?

14.00 -14.20 Prof. E. P. Merkulova (Minsk) - Acute otitis media in young children.

14.20 -14.40 Проф. М.Милков (Варна) – Дисфункция евстахиевой трубы – диагностика и лечение

14.40-14.55 Kapitanov D., Nersesyan M., Potapov A., Kravchuk A., Zinkevich D., Shelesko E. (Moscow) - Endoscopic management of CSF leak rinorrhea.

14.55-15.10 Nersesyan M., Kapitanov D., Lubnin A., Yakovlev S., Buharin E, Arustamyan S., Cherekaev V. Belov A. (Moscow) - MANAGEMENT OF RECURRENT JUVENILE NASAL ANGIOFIBROMAS. MODERN TENDENCY

15.10- 16.10 Round Table : “Maxillary Sinus Approach”

Moderator: Prof. S.A. Karpischenko

Panelists: Prof. P.Catalano, Prof. M.Onerci, Prof. Y.Krespi, Prof. D.Vicheva, Dr. M. Nersesyan

16.10-17.10 Round Table “Secretory otitis media: diagnostic, treatment, prognosis”

Moderator: Prof. O.N.Borysenko (Kiev)

Panelists: Prof. R.Hagen, Prof. E.P. Merkulova, Prof. B.Schmelzer, Prof. W.Mann

17.10-18.10 Round Table “Advanced recurrent papillomatosis: treatment modalities and prognosis”.

Moderator: Ass. Prof. M.Yu.Ulupov

Panelists: Prof. W.Mann, Prof. M.Ryabova, Ass.Prof. I.Bagirova, Prof. H.Kaddour

Satellite Symposium

18.10-18.30 Prof. P.Catalano. Presentation of navigation ENT system NaviENT (Презентация навигационной ЛОР-системы NaviENT.)

18.30-18.40- Проф. Рябова М.А. - ОРИ, профилактика осложнений

18.40-18.50 - Доц. А.Н.Александров - Новые возможности консервативной терапии в оториноларингологии.

May 20, 2016

White Hall

Conference of Young Otorhinolaryngologists

Chairman of the International Jury: Prof. Bert Schmelzer (Antwerp)

Section :“ Rhinology”

9.00-9.10 K.P.Bazarkina (Moscow) - Clinical study of the quality of life in patients with operated nose disease.

9.10-9.20 S. Verhoeven, B.Schmelzer (Antwerp)- Type and severity of septal deviation are not related with the degree of subjective nasal obstruction.

9.20-9.30 I.G. Arustamyan (Saint Petesrburg) -Conservative treatment of snoring and obstructive sleep apnea based on correction of nasal obstruction.

- 9.30-9.40 S.V. Baranskaya (Saint Petersburg) – Anatomical Variations of the Hasner’s Valve
- 9.40-9.50 E.V.Ikonnikova (Krasnoyarsk)- Special features of microbiota of the upper respiratory tract in children with cystic fibrosis
- 9.50-10.00 D.S. Pshennikov (Ryazan) –Difficult cases of the nose deformation, surgical tactics
- 10.00-10.10 V.V. Stativ (Simferopol) - Influence of antioxidant inhalation therapy on a course of experimental acute maxillary rhinosinusitis.
- 10.10-10.20 E.V.Bolozneva (Saint Petersburg) – Maxillary sinus osteoma.
- 10.20-10.30 O.A. Kulikova, S.V. Baranskaya (Saint Petersburg) - ENDOSCOPIC ENDONASAL DACRIOCYSTORHINOSTOMY OUTCOMES
- 10.30-10.40 D.I. Gorin (Salavat) - The effectiveness of surgical methods of treatment of chronic rhinitis.
- 10.40-10.50 F. Khozhamkul (Almaty)- The new in the treatment of acute and chronic rhinosinusitis in adults.
- 10.50-11.20 –Break**
- 11.20-11.30 A.Yu. Pinezhskaya (Saint Petersburg) – Patulous Eustachian tube: diagnosis and treatment.
- 11.30-11.40 Stancheva O.A. (Saint Petersburg) -Clinical features sphenoid sinusitis.
- 11.40-11.50. Fedoseeva (Jaroslavl) - The impact of smoking on the nasal breathing cyclic changes.
- 11.50-12.00 E. Bolshakova (Minsk) - Functional state of the Eustachian tube in patients with diseases the nose and sinuses
- 12.00-12.10 A. V.M.T. Vroegop (Antwerp) -Pathogenesis, diagnosis and treatment of obstructive sleep apnea syndrome (OSAS).
- 12.10-12.20 Kobakhidze A. Merkulova E. (Minsk)-Anatomical variations of osteomeatal complex among the patients with chronic odontogenic maxillary sinusites, CT-findings
- 12.20-12.30 Sapova K.I., Naumenko A.N. (Saint Petersburg) - Differential diagnostics of sino-nasal inverted papillomas
- 12.30-12.40 Yu.A. Markova (Ekaterinburg) - Cavitating low-frequency ultrasound solutions in the treatment of acute rhinosinusitis in children
- 12.40-12.50 L.V.Pestakova (Saint Petersburg) The nasal cytology in patients with gastroesophageal reflux disease.
- 12.50-13.00 A. Garskova, V.N. Krasnozhen (Kazan)-The options for the structure of the complex structures ostiomeatal, resulting in stenosis of the natural maxillary sinus fistula as risk factors for maxillary sinusitis

13.00-13.40 -Break

13.40-13.50 Kudryashov S.E. (Moscow) – Endoscopic endonasal surgery simulator.

13.50-14.00 A.A. Karchinskii (Kharkov) -Diagnosis and assessment of the effectiveness of treatment of patients with acute paranasal sinusitis through the use of remote infrared thermography.

14.00-14.10 Lana Micko (Riga) – Evaluation of nasal bone fracture imaging in adolescents and young adults".

14.10-14.20 K.V. Rekkel (Saint Petersburg) -Pre-implant sinus surgery.

14.20-14.30 E. O. Lysiuk (Saint Petersburg) – Contact laser technique for correction of postoperative nasal cavity adhesions.

14.30-14.40 A.S. Polyanovskaya , E.A.Azovtseva, N.Yu.Beldovskaya (Saint Petersburg) – Cone beam computed tomography for diagnostics and treatment planning of patients with pathology of the lacrimal drainage system.

14.40-14.50 Muratova E. I., Fatalieva A. F.(Saint Petersburg) -The evaluation of the bronchial reactivity for the purpose of prevention of bronchopulmonary complications in rhinosurgical patients.

White Hall

15.10- Awarding the prize winners.

Closing Ceremony

Oak Hall.

Section : "Otology"

9.00-9.10 Nicole Weegerink (Ghent)- "Clinical otogenetics: from research to improved clinical care"

9.10-9.20 E.A. Azovtseva (Saint Petersburg) – Cone beam computed tomography in the temporal bone pathology diagnosis.

9.20-9.30 V. G. Borodulin (Saint Petersburg)- Our experience in sensorineural hearing loss treatment using intratympanic steroid injections.

9.30-9.40 M. Goykhuberg (Moscow) - Ru-Matrix test in patients after cochlear implantation

9.40-9.50 S.V.Sherwashidze (Krasnoyarsk) – Treatment strategy of auricular keloid scars.

9.50-10.00 Joris Soons, Charles Steel, Sunil Puria (Antwerp, Stanford) – How does the organization of Corti cell organization improve sound perception?

10.00-10.10 Nnomzo Alice (Saint Petersburg) The auditory function of neonates in intensive-care units who failed the first stage of hearing screening

10.10-10.20 E.V. Pchelenok, S.Ya. Kosyakov. (Moscow)- Long-term results of open technique cholesteatoma surgery with obliteration of paratympanic spaces.

10.20-10.30 A.S. Lilenko (Saint Petersburg) - The first experience of Auditory Brainstem Implantation in Russia

10.30-10.40 T.M.Kazachonok (Minsk)- Changes in the perilymph antioxidant activity in experimental acute sensorineural hearing loss.

10.40-10.50 Merkulova EP, Lisotskaya VV (Minsk) -Economic evaluation of treatment of sudden sensorineural hearing loss .

10.50-11.20 –Break

11.20-11.30 O. Bondarenko (Kharkov) -Foreign bodies in the ears (piercing). The current state of the problem.

11.30-11.40 A.A. Novozhilov (Nizhnii Novgorod) -Optical coherence tomography in diagnosis of the otitis media with effusion.

11.40-11.50 Z.A. Merzha (Saint Petersburg)- The simplified version of the Oldenburg sentence test.

11.50-12.00 Prof. K. Niemczyk, Prof. O.Naumenko, K. Terentieva (Warsaw, Kiev)- Investigation of the relationship between tumor size and ABR variables

12.00-12.10 D. Marnauza (Riga) – A patient with superior semicircular canal dehiscence.

12.10-12.20 E. Matsveichyk (Minsk) –Limitation of life in patients undergoing pyo-septic complications of purulent otitis media.

12.20-12.30 S. M. Vikhnina (Saint Petersburg) - Hearing impairment in children with congenital cytomegalovirus infection

12.30-12.40 N.R. Akmuldieva, G.A. Mukhamadieva (Astana) -Modern approach to the treatment of catarrhal otitis media

13.00-13.40 –Break

Oak Hall

Section: "Laryngology"

13.40 -13.50 O.I. Dolgov (Saint Petersburg) -Comparison of the Outcomes of Moderate and Wide Laser Resections in the Treatment of Paralytic Laryngeal Stenosis

13.50-14.00 P.D.Potapova (Saint Petersburg) –Secondary hemorrhage after tonsillectomy: main reasons and predisposing factors. Clinical signs of cysts of larynx

14.00-14.10 M. Malkova (Saint Petersburg) – Differential diagnosis of hyperplastic processes of the nasopharynx.

14.10 -14.20 L.B. Alekseeva. (Saint Petersburg) - Clinical signs of cysts of larynx

14.20-14.30 K.K. Rachkova (Saint Petersburg) - Propranolol in the management of infant's subglottic hemangioma.

14.30-14.40 L.A. Unanian (Saint Petersburg) – Clinical course of recurrent respiratory papillomatosis, depending on the HPV type.

White Hall

15. 10 Awarding the prize winners.

Closing Ceremony.
